Insomnia (Koop Arponen)

I feel the pain
I got no patience
The questions with no rhyme
Will set me free

I look at life with complication, maybe
tomorrow's gonna break the spell on me
I pray for the morning light
My saviour through desperate times
'Cause in the dark my heart
keeps asking me

What if you could be loved
If you could be touched
Then I wouldn't have to be
Fighting my enemy
Don't come back insomnia
What if you could be mine
If you could be loved
Then I wouldn't fall so deep
Putting my mind to sleep
Don't come back insomnia

Do you miss me
Like I miss you?

What if you could be loved
If you could be touched
Then I wouldn't have to be
Fighting my enemy
Don't come back insomnia
What if you could be mine

If you could be loved
Then I wouldn't fall so deep
Putting my mind to sleep

Don't come back insomnia

What if you could be loved
If you could be touched
Then I wouldn't have to be
Fighting my enemy
Don't come back insomnia
